Subject : Appreciation for Excellent Support and Services

Dear Sir/Madam,

On behalf of **CHEC-Tata Projects Line-04 JV**, we extend our sincere appreciation to **M/s Knack Engineering Services Private Limited** for your continued support and excellent service as our third-party material testing laboratory.

Your consistent focus on quality, accuracy, and timely submission of test reports has been instrumental in meeting our material testing and inspection requirements. We also acknowledge your proactive approach in addressing on-site demands, accommodating urgent testing needs, and maintaining clear and effective communication with our quality team throughout the project.

We truly value your team's professionalism, technical expertise, and responsiveness, which have significantly contributed to the smooth implementation of our quality assurance processes.

We appreciate this collaboration and look forward to continuing our successful partnership in future infrastructure projects.

Once again, thank you for your dedication and excellent service.

Warm regards,

Sanjib Saha

(Asst. General Manager - Quality)

To,

The Managing Director,
M/s. Knack Engineering Services Private Limited,
Wadala (E), Mumbai – 400 037.

Sir,

This is to formally acknowledge and appreciate the services rendered by M/s. Knack Engineering Services Private Limited, a NABL-accredited third-party civil testing laboratory, in connection with various tests carried out by your company including but not limited to construction material, mix designs, Non-Destructive Test (NDT), Plate Load, Pile Integrity Test (PIT), Building Material, Finishing Products for the Mumbai Metro Line 4 Project.

Knack Engineering Services Pvt. Ltd. is engaged as Third-Party Testing Laboratory to carry out a wide range of material testing and quality assurance services during the execution of the Metro Line 4 works. Their responsibilities as the Third-Party Testing Laboratory included testing of concrete, aggregates, steel reinforcement, bituminous materials, and soil investigations as per relevant IS/IRC/MORTH standards.

The team at M/s. Knack Engineering Services Private Limited is demonstrating commendable professionalism, technical expertise, and timely support throughout the project. Their in-lab testing reports as well as on-site testing reports are found to be accurate, comprehensive, and instrumental in ensuring quality compliance as per project specifications and regulatory requirements. They consistently adhere to safety norms, quality protocols, and maintained high standards in documentation and communication.

We appreciate their contribution and collaborative approach, which supported the quality objectives of the Metro Line 4 project.

Yours Sincerely,

Shivani Patil
Executive Engineer,
Metro Line - 4
